That would make sense. Sounds good to me.

Rob,

The last AR I sent to a library was on CD. They preferred that to hard copies because of space considerations. I suggest we wait until we know for sure we will be proposing the listing in March, and then I'd be happy to work with the library to get it set up.

Cynthia

Yeah we will need assistance. We'll need to supply a copy of our documentation record for the IR and get it to them concurrently with the FR notice. I'm not sure how the library wants to file it (I'd leave that up to them) but we'll want to work with them to ensure that it's available to the public.

Thanks, Rob. I'll add the location to the ComStrat. Will you and Mark be putting together the materials for the IR prior to the Federal Register notice? Will you need any help getting it set up at the library?

Thanks for checking Cynthia. I think the library would be a good choice for an information repository.

They also might have a meeting space available to keep in mind for future meetings. At least I think that they had a space prior to closing the first time.

Rob, the library is now open in Columbia Falls. The address is 130 6th Street West #C, Columbia Falls, MT 59912.

Hi Cynthia –

Chris and I put a public notice in the Hungry Horse News for a meeting held last spring. I'd suggest either the Inter Lake or Beacon, however, since the Hungry Horse news is a weekly. I'm not sure if the Beacon is a daily paper. I'm also not sure which one is more prevalent in the Columbia Falls area.

We have not selected a local info repository yet. For Smurfit Stone, we selected a library so the documents would be inventoried as they saw fit and interested parties could have access to a copy machine to copy materials. I'm not sure of the status of the Imagine If Library. If memory serves, the library had been shut down when we were looking to hold the public meeting.

Wish you a quick recovery Cynthia!

Rob

Hi, All.

As I mentioned at our last meeting, I'm going to be having some minor surgery on my foot this Thursday. I'll be out of the office for at least a couple of weeks, though I plan to telework after the first few days. Since we may have to notice the proposal to list while I'm out, Chris Wardell has graciously agreed to cover for me on this site. I'm going to be updating the ComStrat before I leave and hope to have the relevant documents drafted, too.

I have a couple of questions for those of you who are more familiar with the community.

- Would the best newspaper for the Public Notice be the Flathead Beacon? The other options are the Hungry Horse News and the Daily Inter Lake.
- It looks as though the public notice should include the location of an information repository where supporting documents can be found. Has a local information repository been set up in Columbia Falls? If not, would the local library (Imagine If Library) be the most logical location?

Thanks!
Cynthia
